Pre-Med Intern in Ophthalmology and Orthopedics

The internship is for college graduates applying to medical school for the fall of 2021. As an intern for an oculoplastic surgeon, Dr. Cynthia Boxrud, and an orthopedic surgeon, Dr. Scott Powell, you will assist as the doctors see patients for ophthalmology, cosmetic facial consultation, and sports medicine. Responsibilities include taking patient histories, presenting the patient to the physician, recording appointment notes, and shadowing the doctors throughout the day in clinic. You will also have the opportunity to observe cosmetic, ophthalmic, and orthopedic surgeries twice a week. You will learn to read x-rays and MRIs, observe sterile technique in the operating room and have the opportunity to participate in research projects with the goal of publishing the results. Other responsibilities include making appointments and answering patient calls. In addition, you will learn the business of running a medical practice. You will be working with the electronic health records system DrChrono.

The internship will last through June 2021 to allow you to train the next team of interns. Dress code is business attire. Depending upon graduation, the start date will be 05/26/2020.

Please submit a cover letter along with your resume.
