Registration for the January-June MCAT exam dates will open on October 16, 2019. Registration to select test dates for July-September will open in February 2020.

Students will have the ability to begin their registration process in advance of selecting their test date and location. Beginning on October 8, students will be able to complete the necessary background and biographical information and agree to the terms. The option to select a date and location will not be available until registration officially opens on October 16.

Starting the registration process early will allow students more time to enter their personal information, read important MCAT policies and forms, and accept terms before searching for a test date and location on October 16. Completing personal information and terms in advance does not give students priority in selecting their test date and location.

Follow us on Twitter @AAMC_MCAT for updates and announcements. For additional information about registration, visit our website.
