Clinical research program coordinator—paid, full-time mentored position, 2-year commitment preferred
Clinical and Translational Neuroscience Unit, Weill Cornell Medical College, New York City

Preferred start date: June/July 2019

Position Description: The Weill Cornell Clinical and Translational Neuroscience Unit (CTNU) is seeking a clinical research program coordinator beginning summer 2019. Our research focuses on identifying risk factors of stroke and other forms of neurological disease. The position will entail managing the operations of the research team as well as contributing to the team’s research projects. Students who identify as an underrepresented minority in medicine are encouraged to apply. Visit here to find out more about the position and the application process.
